PROFILE

Third-year Information Technology student specializing in Network Engineering at **Fayoum International Technological University**.

Certified through **Cisco Networking Academy** with strong foundation in CCNA-based networking, routing & switching, and basic cybersecurity concepts.

Currently trainee at **Information Technology Institute** gaining practical experience in mobile application development and system integration.

Seeking an internship or entry-level position in IT Support or Networking

SKILLS

Networking: CCNA: Introduction to Networks | Switching, Routing & Wireless Essentials | Enterprise Networking Basics | Cisco Packet Tracer | VLANs, Subnetting, Routing Fundamentals | Basic Network Security Concepts

Operating Systems: Windows Administration | Linux Fundamentals

Programming: Python | C / C++ | Java

Web & Mobile Development: HTML, CSS, JavaScript | Flutter & Dart | Firebase & Firestore

Tools: Git & GitHub | Microsoft Office

CERTIFICATES

From Cisco Networking Academy:

- CCNA: Introduction to Networks
- CCNA: Switching, Routing & Wireless Essentials
- CCNA: Enterprise Networking, Security & Automation
- Introduction to Cybersecurity
- Endpoint Security
- IOT

From Information Technology Institute:

- Mobile App Development with Flutter
- Artificial Intelligence Fundamentals

From IBM:

- Artificial Intelligence (AI) Certification

From National Telecommunication Institute:

- IT Technical Support Training

AWARDS

- Awarded **Second Best Project** – Second-Year College Competition
- Recognized in Cisco Scholarship Competition

EDUCATION

Bachelor of Information Technology (Network Engineering) – In Progress Fayoum International Technological University 10/2023 – 07/2027 (Expected) | Fayoum, Egypt

PROFESSIONAL EXPERIENCE

Trainee – Information Technology Institute

07/2025 – Present

- Completed intensive training in Flutter development
- Developed a fully integrated mobile e-commerce application
- Integrated Firebase Authentication, Firestore database, and REST APIs
- Participated in technical workshops and developer events.

PROJECTS

Cisco Network Simulation Project

- Designed and implemented enterprise-level network using Packet Tracer
- Configured VLANs, routing protocols, and basic security policies
- Simulated troubleshooting scenarios based on CCNA concepts

Integrated E-commerce Store – ITI Training

07/2025 – 08/2025

- Developed a mobile e-commerce application using Flutter.
- Integrated Firebase, Firestore, and REST APIs.
- Designed user-friendly interfaces for smooth user experience.

Web E-commerce Platform – College Project

03/2025 – 05/2025

- Developed a full web-based e-commerce platform.
- Improved browsing and purchasing workflow.
- Applied web development best practices.

IoT Project – Robotic Hand

03/2024 – 05/2024

- Designed and programmed a robotic hand using IoT technologies.
- Implemented embedded programming for control and movement.

LANGUAGES

- **English:** Good
- **Arabic:** Excellent
